

TriFTMIS

TriFTMIS is Software I developed for Monitoring Franchise and Tin Plate for the operators of Public Utility Tricycles within the City of Malolos, Bulacan, Philippines. The software also allows the automated creation of Franchise Certifications for the operators.

Public Utility Tricycle/MotorCycle for Hire(MCH) Operators are grouped by different Tricycle Operators/Drivers Associations(TODA's) from different areas within the city. These operators are permitted to operate their tricycles as Public Utility Transportation once they applied for a Franchise and renew it along with the Tin Plate Sticker that comes with it regularly. Currently in the City of Malolos, Bulacan, a Tricycle Operator's Franchise has a validity of 5 years and the Tin Plate Sticker must be renewed yearly.

The screenshot shows the TriFTMS Home application interface. A 'Drop List' window is open in the foreground, displaying a table of vehicle records. The table has columns for Body No., Name, Operator, Make, Motor No., Chassis No., Franchise No., New Owner, Date Approved, Reason, and Actions. The 'Reason' column for many records is 'CHANGED FOR PRIVATE USE'. A search icon is visible in the top right of the window. The background shows the main application window with a menu bar (File, Reports, Drop List, Log, Certifications, Settings, About) and a search bar.

Print Drop List

This screenshot is similar to the first one, but with a 'Print Drop List' dialog box open in the foreground. The dialog box has fields for 'From' (1/ 1/2015) and 'To' (9/ 7/2015), and a 'Reason' dropdown menu. A printer icon is also visible in the dialog box. The background shows the same data table as the first screenshot.
